

PACER 12 UE

THE ULTIMATE VACUUM

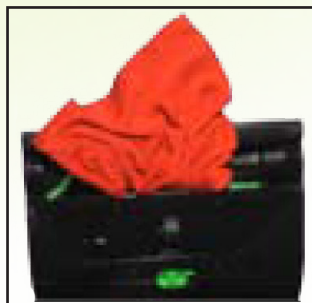

- Lightweight and durable single motor upright with a 12” cleaning path. Impact resistant polypropylene body.
- Powerful 1.7 HP 2-stage vacuum motor draws 92 inches of water lift and 100 CFM of air flow.
- Loaded with features: Crevice tool, round brush tool, spare bag storage compartment, bag full indicator light, and adhesive bag seal for dust free disposal.
- Tool-less maintenance: Quick change cord, brush replacement and clog removal if needed.
- Three stage filtration system with HEPA performance. 99.97% efficient at 0.3 microns.
- Fully compliant with LEED requirements. CRI “Gold” rated. Quiet operation at only 67 dBA.
- 2 year warranty, belt included.

Patent-pending WAVE-LOK ensures secure bag installation every time. WAVE-LOK ensures easy bag removal, even if overfilled.

Chevron-style brush is built for tough commercial use, and is easily removed for replacement.

A mechanical clutch protects the drive belt from breaking if the brush gets jammed.
