

# Predator CXH 200 & CXC 200

11-Gallon Tank Extractors

For excellent cleaning performance in a rugged, durable design, there is the 11-gallon CXH 200 (Hot) and CXC 200 (Cold) Predator tank extractors from NSS.

- The NSS Predator series of tank extractors are high-pressure machines with amazing carpet cleaning abilities.
- With the heated CXH 200 model, hot, high-pressure solution is literally blasted deep into the carpet nap, and then immediately extracted for the ultimate in restorative carpet cleaning.
- The Predator CXH 200 comes equipped with circuit locators (no more blown breakers) and an 1850-watt heater that brings the water temperature up quickly to clean effectively.
- This model features a 200 PSI pump in a compact, easy-to-transport body.
- Dual vacuum motors produce 140 inches of waterlift with the help of a vacuum manifold, which equalizes motor performance and assures consistent, smooth operation.
- The CXC 200 is the non-heated version of this machine.

- ❶ Clear recovery tank port allows the operator to monitor the level of recovered solution.
- ❷ Rotomolded polyethylene body resists dents and corrosion, translating to years of dependable service.
- ❸ Each machine comes with a built-in cord storage compartment for convenient storage of cords.
- ❹ 4-inch swivel casters allow amazing maneuverability during extraction.
- ❺ Large, 10-in non-marking back wheels make transportation on stairs easy.

Use the 2-jet wand pictured above (#4093251) with the Predator CX 200 models.

All Predator models are equipped with large, international-symbol rocker switches for easy machine operation.

For repairs and maintenance the tip-back feature of the Predators allows easy access to the dual 2-stage vacuum motors, positive-displacement pump, heat exchanger, and other internal components of the machine.

**DO NO HARM™**

Cleaning with hot water is substantially better than cleaning with cold. The heated model (CXH 200) allows better cleaning while using less or even no chemicals.
