

Predator CXH 150 & CXC 150

12-Gallon Tank Extractors

For excellent cleaning performance in a rugged, durable design, there is the 12-gallon CXH 150 (Hot) and CXC 150 (Cold) Predator tank extractors from NSS.

- The NSS Predator series of tank extractors are high-pressure machines with amazing carpet cleaning abilities.
- With the heated CXH 150 model, hot, high-pressure solution is literally blasted deep into the carpet nap, and then immediately extracted for the ultimate in restorative carpet cleaning.
- The Predator CXH 150 comes equipped with Smart Circuit Locators (no more blown breakers), Solid-State Circuitry (trouble-free operation) and an Instant Heat Exchanger (consistent 212°F solution temperature).
- This model features a 150 PSI pump in a compact, easy-to-transport body.
- Dual vacuum motors produce 150 inches of waterlift with the help of a vacuum manifold, which equalizes motor performance and assures consistent, smooth operation.
- The CXC 150 is the non-heated version of this machine.

- 1 Clear view recovery tank bubble allows the operator to monitor the level of recovered solution.
- 2 A removable funnel reduces spillage when filling the solution tank.
- 3 Rotocast polyethylene body resists dents and corrosion, translating to years of dependable service.
- 4 Each machine comes with a built-in cord wrap for convenient storage of cords.
- 5 3-inch swivel casters allow amazing maneuverability during extraction.
- 6 Large, 8" non-marking back wheels make transportation on stairs easy.

Use the 3-jet wand pictured above (#4097101) with the Predator CX 150 models. A 2-jet wand (#4097201) is also available. Order separately.

All Predator models are equipped with large, international-symbol rocker switches for easy machine operation.

Cleaning with hot water is substantially better than cleaning with cold. The heated model (CXH 150) allows better cleaning while using less or even no chemicals that can be hazardous to the environment.
